ALETH SPECTRE

Glass & Multi-Surface Cleaner (Ready to Use)

DOCUMENT NO.	VERSION	SUPERSEDES	ISSUED	EMERGENCY (US)
SDS-AL-05	1.2	1.1	October 25, 2026	1-800-222-1222

Uncontrolled when printed — verify the current revision on the ALETH website or with ALETH Chemical Co. Composition disclosed at class level under trade-secret claim (29 CFR 1910.1200(i)). Hazard information fully disclosed.

1 IDENTIFICATION

Product identifier	ALETH SPECTRE — Glass & Multi-Surface Cleaner (Ready to Use)
Other means of ID	SPECTRE · SDS-AL-05
Recommended use	Streak-free glass, mirror and hard-surface cleaning. Ready to use as supplied.
Restrictions	Not for use on hot surfaces or in direct sunlight. Not for internal use.
Supplier	ALETH Chemical Co., Charlotte, NC, USA
Contact	Inquiries: via the ALETH website or the contact details on the product label
Emergency phone	US Poison Control: 1-800-222-1222

2 HAZARD(S) IDENTIFICATION

DANGER — GHS CLASSIFICATION OF THE MIXTURE

GHS02 · FLAME

GHS07 · EXCLAMATION

H225 — Flammable liquid and vapor
H315 — Causes skin irritation
H319 — Causes serious eye irritation
H336 — May cause drowsiness or dizziness

HAZARD CLASS	CATEGORY	H-CODE	STATEMENT
Flammable liquid	2	H225	Flammable liquid and vapor
Skin irritation	2	H315	Causes skin irritation
Serious eye damage / eye irritation	2A	H319	Causes serious eye irritation
Specific target organ toxicity — single exposure	3	H336	May cause drowsiness or dizziness

Precautionary statements (summary)

- **P210** — Keep away from heat, sparks, open flames and hot surfaces. No smoking
- **P280** — Wear protective gloves and eye protection
- **P261** — Avoid breathing mist and vapours

- **P271** — Use only outdoors or in a well-ventilated area
- **P301+P330+P331** — If swallowed: rinse mouth. Do NOT induce vomiting
- **P302+P352** — If on skin: wash with plenty of water
- **P305+P351+P338** — If in eyes: rinse cautiously with water for several minutes; remove contacts
- **P304+P340** — If inhaled: remove to fresh air, keep at rest
- **P403+P235** — Store in a well-ventilated place. Keep cool

Other hazards: Flash point is not yet confirmed by test — until the result of the scheduled ASTM D93 test is available, treat this preparation as a flammable liquid and observe the precautions of the more severe category. Never mix with bleach, ammonia, acids or other cleaning products — a violent reaction and hazardous gases can result. Vapours are heavier than air and may travel to a distant ignition source and flash back.

3 COMPOSITION / INFORMATION ON INGREDIENTS

COMPONENT	CAS NO.	CONCENTRATION	GHS CLASSIFICATION
Proprietary blend of alcohols and carriers	Trade secret	Withheld	Flam. Liq. 2, H225 · STOT SE 3, H336 · Eye Irrit. 2A, H319
Water	7732-18-5	Withheld	Not classified
Proprietary blend of solvents and surfactants	Trade secret	Withheld	Skin Irrit. 2, H315 · Eye Irrit. 2A, H319
Proprietary blend of chelating agents and additives	Trade secret	Withheld	Not classified

Trade secret statement (OSHA 29 CFR 1910.1200(i)): The specific chemical identities and/or actual concentrations or actual concentration ranges of the proprietary components are being withheld as trade secrets under the US regulation 29 CFR 1910.1200(i). Concentration ranges are withheld. Hazard information is fully disclosed throughout this SDS. Component identities are disclosed to treating physicians and other persons designated by them as required by 29 CFR 1910.1200(i)(4).

4 FIRST-AID MEASURES

Inhalation	Move to fresh air. Rest if breathing is difficult. Get medical attention if symptoms persist.
Skin contact	Remove contaminated clothing. Wash skin with plenty of water. Seek medical attention if irritation develops. Wash clothing before reuse.
Eye contact	Rinse cautiously with water 15+ minutes, lifting lids. Remove contacts after 5 minutes, continue rinsing. Seek medical attention if irritation persists.
Ingestion	Rinse mouth. Do NOT induce vomiting (aspiration risk). Drink water or milk if conscious. Get medical attention.
Most important symptoms	Skin and eye irritation. Drowsiness and dizziness from vapour in poorly ventilated areas.
Note to physician	Treat symptomatically. For component identities in an emergency, contact ALETH Chemical Co. (disclosure to treating physicians per 29 CFR 1910.1200(i)(4)).

5 FIRE-FIGHTING MEASURES

- **Suitable extinguishing media:** Alcohol-resistant foam, dry chemical, carbon dioxide, water fog.
- **Unsuitable:** A direct water jet may scatter burning liquid.
- **Specific hazards:** Vapours are heavier than air and may travel to a distant ignition source and flash back. Closed containers may rupture in fire. Toxic and irritant fumes and mists may form if heated or in a fire. Do not breathe smoke.

- **Firefighting PPE:** Full protective clothing and self-contained breathing apparatus (SCBA).
- **Flash point:** To be determined — ASTM D93 (Pensky–Martens closed cup), test scheduled.

6 ACCIDENTAL RELEASE MEASURES

- **Precautions:** Remove all sources of ignition. Ventilate the area. Wear protective equipment. Avoid breathing vapours. Avoid contact with skin, eyes and clothing. No smoking.
- **Small spill:** Absorb with inert material, place in a closed container. Do not allow entry into drains.
- **Large spill:** Stop leak, dike area, pump into containers, cover residue with inert absorbent. Notify authorities if drains or waterways are threatened.

7 HANDLING AND STORAGE

- **Handling:** Use in a well-ventilated area. Avoid breathing mist. Avoid contact with skin and eyes. Keep away from heat, sparks and flames. No smoking.
- **Storage:** Store in the original container, tightly closed, in a cool, dry, well-ventilated place away from heat, sparks, flames and oxidizers. Keep out of reach of children.
- **Mixing:** Never mix with bleach, ammonia, acids or other cleaning products — a violent reaction and hazardous gases can result.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure limits: No US national OELs established for the mixture. OELs of disclosed components are available from the manufacturer on request (component identities are trade secret).

- **Engineering controls:** Good general ventilation is normally adequate for consumer use. For repeated or industrial use, local exhaust may be needed.
- **Personal protective equipment:**
  - Eye protection — safety glasses with side shields or goggles
  - Skin protection — nitrile or neoprene gloves
  - Respiratory — none needed with adequate ventilation; use an organic vapour respirator (NIOSH-approved) in poorly ventilated areas
- **Hygiene:** Wash hands after use. Do not eat, drink or smoke when using.

9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Clear, colourless liquid
Odour	Characteristic (alcohol, solvent)
Odour threshold	Not determined
pH	7.5 – 8.0 (as supplied)
Melting point / freezing point	Not determined
Initial boiling point / boiling range	Not determined
Flash point	To be determined — ASTM D93, test scheduled
Evaporation rate	Not determined
Flammability (solid, gas)	Not applicable
Upper/lower flammability or explosive limits	Not determined

Vapour pressure	Not determined
Vapour density	Heavier than air
Relative density	Approximately 0.9 g/mL at 20 °C
Solubility in water	Complete
Partition coefficient (n-octanol/water)	Not determined
Auto-ignition temperature	Not determined
Decomposition temperature	Not determined
Viscosity	Not determined (water-like)

10 STABILITY AND REACTIVITY

- **Reactivity:** Not reactive under normal conditions.
- **Stability:** Stable under recommended storage conditions.
- **Possibility of hazardous reactions:** May react violently with oxidizers.
- **Conditions to avoid:** Heat, sparks, flames and static discharge.
- **Incompatible materials:** Strong oxidizing agents, strong acids, strong bases.
- **Hazardous decomposition products:** Carbon monoxide, carbon dioxide on incomplete combustion.

11 TOXICOLOGICAL INFORMATION

- **Skin:** Causes skin irritation.
- **Eyes:** Causes serious eye irritation.
- **Inhalation:** May cause drowsiness or dizziness.
- **Ingestion:** May be harmful if swallowed. Aspiration hazard if vomiting occurs.
- **Acute toxicity (LD50/LC50):** No data for the mixture. Component data available on request.
- **Carcinogenicity:** Not classified. No component identified as a carcinogen by IARC, NTP or OSHA.
- **Reproductive toxicity, STOT (repeated), aspiration:** Not classified.

12 ECOLOGICAL INFORMATION

- **Ecotoxicity:** The product is not classified as hazardous to the aquatic environment.
- **Persistence and degradability:** Organic components are readily biodegradable.
- **Bioaccumulative potential:** Low.
- **Mobility in soil:** High — miscible with water.
- **Other adverse effects:** None known.

13 DISPOSAL CONSIDERATIONS

- **Product:** This material, as supplied, is a hazardous waste under RCRA (D001 — ignitable). Dispose of in accordance with federal, state and local regulations. Do not discharge into drains.
- **Container:** Empty containers retain residue and vapours. Do not cut, weld, pressurize or expose to ignition sources. Recycle where facilities exist.

14 TRANSPORT INFORMATION

UN number	UN 1993
UN proper shipping name	Flammable liquid, n.o.s.
Transport hazard class	3
Packing group	II (provisional — to be confirmed by flash point test)
Environmental hazards	Not a marine pollutant
Special precautions	Keep away from heat and ignition sources in transport. Limited-quantity provisions may apply.
Technical names	Technical names under 49 CFR 172.203(k): component identities are withheld under a trade-secret claim permitted for n.o.s. entries; the claim is recorded with the shipping papers.

15 REGULATORY INFORMATION

- **US federal:** OSHA HCS 2012 — classified as hazardous (see Section 2). SARA 311/312 — fire hazard, acute health hazard. TSCA — all components listed or exempt.
- **US state:** California Proposition 65 — status under internal review at launch; potential to contain a listed chemical (identity withheld as trade secret). Final determination at label lock.
- **Canada (WHMIS 2015):** Classified — Flammable Liquids Category 2; Skin Irritation Category 2; Eye Irritation Category 2A; STOT SE Category 3. (Legacy WHMIS 1988: B2, D2B.)

16 OTHER INFORMATION

VERSION	DATE	CHANGE
1.0	September 23, 2026	Initial issue.
1.1	September 23, 2026	Classification pass — flammable liquid, skin/eye irritation, STOT SE 3 confirmed; transport and disposal sections aligned.
1.2	October 25, 2026	Trade-secret pass, concentration ranges withheld. Hazard and handling information unchanged.

Abbreviations: GHS — Globally Harmonized System; HCS — Hazard Communication Standard; STOT SE — Specific Target Organ Toxicity, Single Exposure; SCBA — Self-Contained Breathing Apparatus; RCRA — Resource Conservation and Recovery Act; WHMIS — Workplace Hazardous Materials Information System; ASTM — American Society for Testing and Materials.

Disclaimer: The information in this Safety Data Sheet is believed to be accurate as of the date of issue and is provided in good faith. It is not a specification and no warranty is expressed or implied. Users are responsible for determining the suitability of this product for their intended use and for compliance with applicable laws.
